From 1 January 2027, a single Transmission Agreement will apply under the existing NTS Transmission Agreement.

At present

NTS Transmission Agreement

GTPS Transmission Agreement

Integration of NTS & GTPS

Status effective on 1 January 2027

Transmission Agreement

Continuity of commercial cooperation:

- The transition to the integrated entry-exit system covering NTS and TGPS network does not entail the necessity to conclude new transmission agreements.
- Every Shipper holding a TGPS Transmission Agreement is also a party to the NTS Transmission Agreement.

Transmission Agreements – formal steps

Integration of NTS and TGPS into a single market area does not require any changes to NTS Transmission Agreements.
Only the formal termination of TGPS Transmission Agreements will be necessary.

NTS Transmission Agreements

- These relate to the currently applicable TNC and Tariff (after 1 January 2027 for the integrated entry-exit system).

= No amendments (annexes) to Transmission Agreements are required.

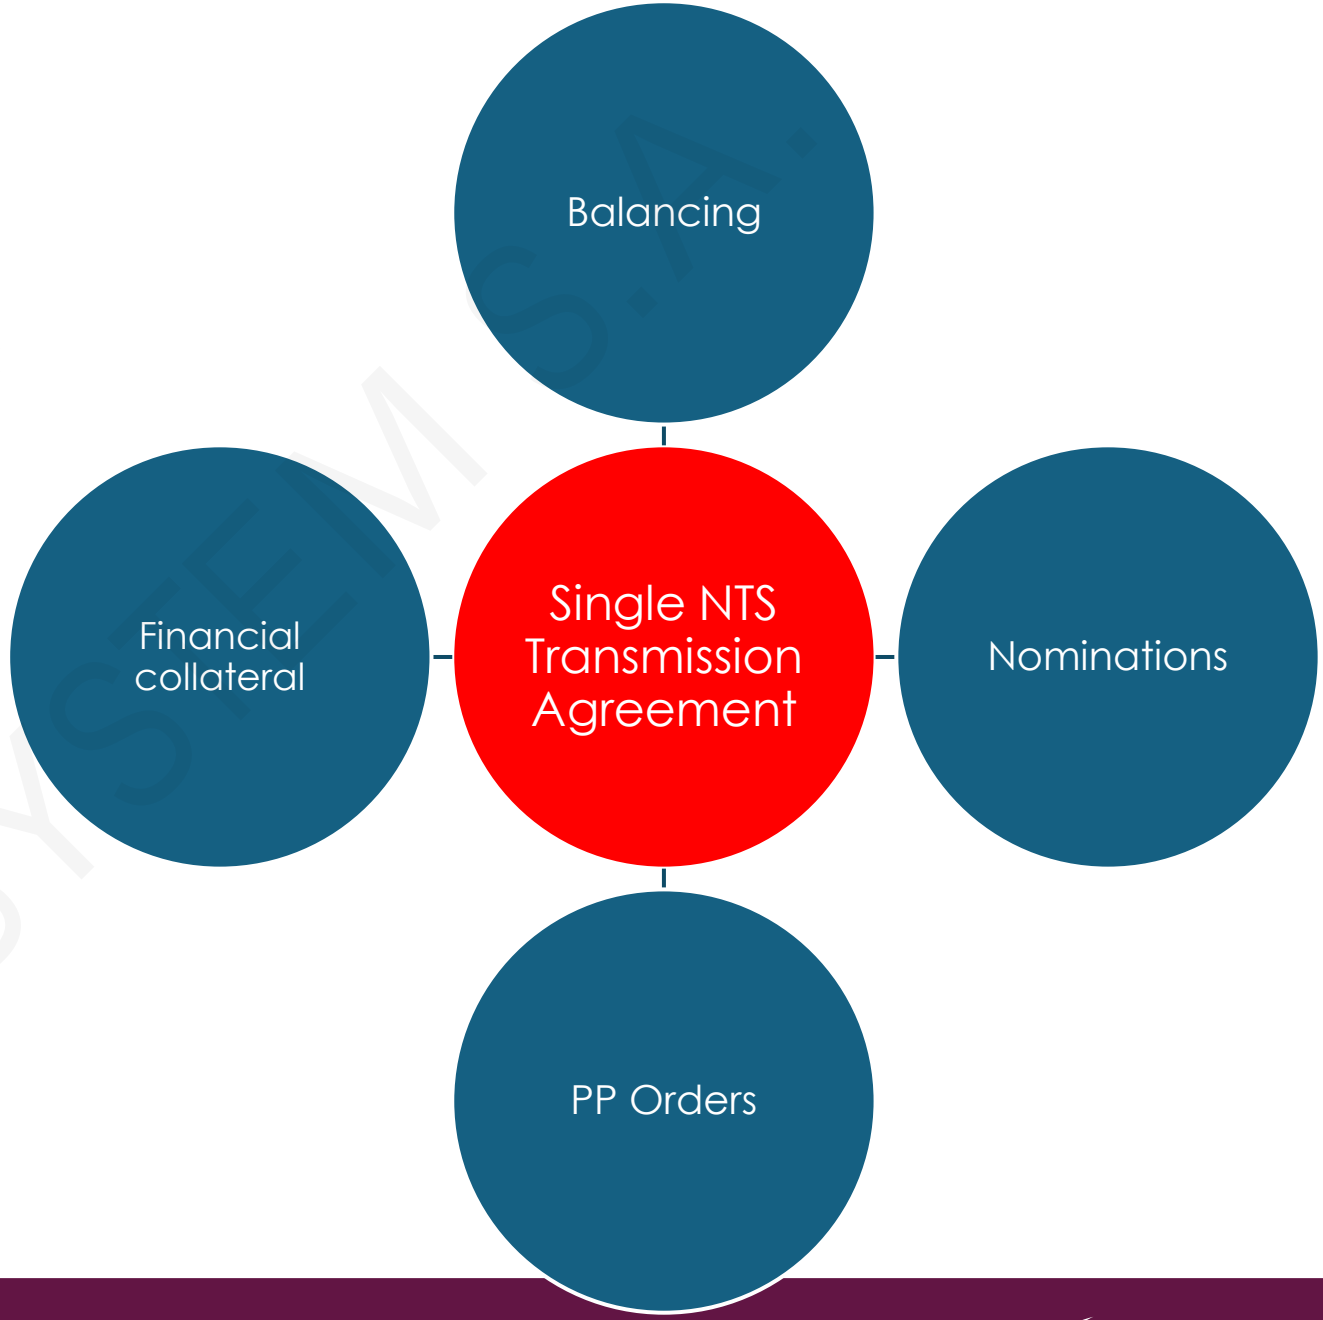

TGPS Transmission Agreements

- After 1 January 2027, TGPS Transmission Agreements will become redundant and will ultimately be terminated.
- Provisions governing the termination of TGPS Transmission Agreements will be communicated in due course.

Single Transmission Agreement means:

- ☑ fewer administrative duties
- ☑ simpler handling
- ☑ consistent processes for market participants
